DOUBLE ARM ARTICULATED TV WALL MOUNT 32" - 65" SCREENS

The Double Arm bracket is a bespoke, made to order manual TV articulating bracket that allows a screen to be pulled forward and rotated over 90 degrees in either direction (screen width dependant). Available in 4 standard sizes, or in custom lengths up to 1 meter (39"), the Double Arm TV Bracket is the ideal problem solver for when one of our standard sized brackets does not suit. Our design team will customise the length of each arm to ensure the solution offered exactly matches the criteria of the installation.

SPECIFICATION	
Screen Sizes	32" - 65"
Max. Screen Weight	30kg (132lbs)
Depth From Wall	105mm (3.54") - 125mm (4.92")
Max. Rotation	Over 90° (Display/Wall Setup Dependant)
Movement Type	Manual

DESIGN HIGHLIGHTS

- ✓ Solid steel construction holds display securely
- ✓ Bidirectional swivel ideally suited for installation in corners and alcoves.
- ✓ Custom cut arms to any length up to 500mm(19.68") per arm available
