AL675

TV LIFT FOR 32" - 48"

The AL675 stands as the epitome of functionality and design, crafted from raw materials in our manufacturing facilities, achieving an optimal balance between quality and versatility. The wide variety of included control options guarantees compatibility with any smart home out of the box, while the height efficient design allows for the mechanism to be easily implemented inside a plethora of bespoke cabinetry. The near silent motors effortlessly lift the display into an optimal viewing position, creating a relaxed and comfortable environment within a home.

SPECIFICATION	
Screen Sizes	32" - 48"
Max. Screen Height	645mm (25.39")
Max. Screen Weight	50kg
Lid Types Included	Push Flap + Fixed Lid
Control Options	RS232 / Contact Closure / IR (RF version available)

AL965

TV LIFT FOR 50" - 65"

Hand crafted from the ground up, the AL965 has been developed to embody the characteristics of the AL675 with an increased travel distance to accommodate larger displays. Requiring only the height of the screen plus 75mm (2.9"), the included push rollers smoothly opens the cabinet lid, making the AL965 our most height efficient mechanism. Capable of fitting in a wider variety of bespoke cabinetry, every aspect of this mechanism comes together to form a reliable and unforgettable experience for the end user.

SPECIFICATION	
Screen Sizes	50" - 65"
Max. Screen Height	930mm (36.51")
Max. Screen Weight	40kg (88lbs)
Lid Types	Push Flap + (Optional) Fixed Lid
Control Options	RS232 / Contact Closure / IR (RF version available)
