FLAT BRACKET DISPLAY MOUNT UP TO 47"

The FB22 is designed to mount up to 47" displays just 15mm from the wall. The fixed frame design is ultra slim, yet it is able to mount screens weighing up to 40kg (88lbs) with ease. The mounting system is compatible with the VESA 200 x 200 system, making the mount compatible with a majority of medium sized displays.

The built in on wall levelling system enables the mount to be installed perfectly level without needing to adjust the position of the wall mount. The intuitive hook on screen mounting system can be attached and removed from the mount for simple servicing and diagnostic tests.

The included security screw keeps the display safely mounted during events and in public spaces.

SPECIFICATION

Screen Sizes	Up to 47"
Max. Screen Weight	40kg (88lbs)
VESA	200 x 200
Colour	Black
